

Dear Partners and Members,

A warm welcome to the 3rd issue of our newsletter. We hope you will enjoy this new way to keep you up to date with our activities.

ENEN Implementation team members:

Dr. Gabriel Lazaro Pavel
Executive Director

Mr. Francisco Suárez Ortiz
Finance Coordinator

Ms. Roberta Cirillo
Communication Officer

NEW PROPOSAL AHEAD!

ENEN will address the Education and Training line of the new Euratom call, expected to be published soon. ENEN will propose itself to lead a new project relying particularly on the experience gained through coordinating an important number of E&T projects such as [ENEN+](#) , [ANNETTE](#) , [EUJEP](#), [ENEN-RU](#) and others.

ENEN – IAEA VIRTUAL NUCLEAR ENERGY MANAGEMENT SCHOOL

23 August – 03 September 2021
Brussels, Belgium

Deadline for applications
02 July 2021

Objectives

- Raise participants' awareness about recent developments in nuclear energy
- Broaden participants' understanding of key issues and challenges associated with nuclear energy
- Introduce participants to leadership and managerial competencies needed to successfully run a nuclear power programme

Target Participants

Young professionals with managerial potential from invited Member States

Applications should be submitted through the host official channels to:
<http://nppg.enen.eu>

more information at
<https://www.iaea.org/services/education-and-training/schools/school-of-nuclear-energy-management>

ENEN / IAEA Virtual Nuclear Energy Management School

The first fully fledged virtual ENEN / IAEA NEM school for Young professionals with managerial potential.

Objectives of the school

- Raise awareness about recent developments in nuclear energy
- Broaden participants' understanding of key issues and

A Word from our Vice-President:

Dear ENEN Members,
Colleagues and Friends,

It is a pleasure and an honour for me to be vice-president of the ENEN board of directors.

The activities of the ENEN and their impact are fundamental to strengthen the relations among member institutions all over the world.

I would like to call your attention to two online summer events both organized within the frames of the ENEN+ project.

At the end of June, the “[Second European Nuclear Competition for Secondary School Pupils](#)” was organized online, for which 33 teams applied from 11 different countries. This event was a truly international initiative devoted to address young people's interest in the nuclear field in an attractive and modern way.

The event was streamed on YouTube, the uploaded videos are available at [this link](#).

The whole playlist of competing videos can be found here, please [have a look!](#)

At the beginning of July the “[Second ENEN Nuclear Summer School for Bachelor](#)

challenges associated with nuclear energy

- Introduce participants to leadership and managerial competencies needed to successfully run a nuclear power programme. **Applications open on the [ENEN Apply Portal](#)**

FOLLOW UP ON OUR INITIATIVES

All the mentioned projects have received funding from the European Commission.

TOURR: Towards optimized use of research reactors in Europe. A **Research Reactor Survey** is being conducted. Gathering answers from this questionnaire will allow us to assess the impact of the decreasing number of RRs, identify future needs, draw a roadmap for the upgrade of the existing RR fleet, and develop a model for harmonized resource utilization. If you wish to take part, please visit: [this link](#)

SaTE: Safeguards training and education. The Specializing Master Program has been officially presented and incredible speakers joined us, [read the article on WNN](#). Selection of applicants will start soon.

ELSE: European Leadership for Safety Education. The Steering Committee reunited on June 7th and was consulted on the strategy to adopt for the project follow up. ENEN, among other tasks, takes care of the relations with INSC contact persons. More information at [this link](#).

ECC-SMART: Joint European Canadian Chinese development of Small Modular Reactor Technology. This project consortium has members belonging to 3 continents. Further information [here](#). You can also follow the project on its [LinkedIn Page](#).

A-CINCH: Augmented Cooperation in Education and Training in Nuclear and Radiochemistry. The [CINCH Talks series](#) had its 2nd webinar, more details on the project, on its dedicated page, [here](#). The A-CINCH project poster will be presented at the NENE Conference.

GRE@T PIONEER Graduate education alliance for teaching the physics and safety of nuclear reactors. Check the dedicated webpage on [our website](#).

ENENplus: Attract, Retain and Develop New Nuclear Talents Beyond Academic Curricula. The latest activities of the project are under development. New webinars, interviews and inspiring talks are being organized to give insights on nuclear careers. Follow ENEN socials to make sure not to miss them.

[and Master students](#)” will take place online. Students will have the opportunity to attend the online event and will be introduced to the multi-disciplinary present and future challenges of nuclear sciences.

I would like to wish you a great summer and please GET VACCINATED...

Coilla Pesznyák

ENEN Events & Initiatives for students and members

ENEN PhD Event and prize 2021

The Award Ceremony of the ENEN Prizes will be held during the International Conference Nuclear Energy for New Europe – [NENE 2021](#), Bled, Slovenia, on September 8th, 2021.

Presentations will take place on Tuesday, September 7th, 2021. The award ceremony of the ENEN prize will be held on Wednesday, September 8th, 2021.

Attendance in presence will highly depend of the evolution of the COVID 19 pandemic. More info, including updates on how to travel to Slovenia, [here](#).

International Collaborations

The ENEN RU joint group kick off meeting took place at the end of May.

The discussion that followed allowed planning for future actions with the goal of strengthening the collaboration between ENEN and Russian Universities.
