A Word from our President:

Dear ENEN Members, Colleagues and Friends,
This month we reached a remarkable milestone in ENEN history: 20 years of activities!

We celebrated with a series of events which brought together: diplomats from Countries Permanent Representations, European Commission officers, reference personalities from Education and Training institutions, and the civil society.

In collaboration with our partner institutions, the European Commission, the European Nuclear Society, the SNETP network, nucleareurope and the OECD-NEA, we launched the debate that will shape the perspectives of Nuclear in Europe and how the Human Resources can cope with the foreseen demand.

ENEN 20th Birthday - For a European Dynamic on Nuclear Skills

To properly celebrate 20 years of ENEN Activities, we had a 3 days long series of events: starting with the final plenary of the TOURR project, approaching its end after 3 years of implementation under ENEN coordination.

The day after was dedicated to the TOURR Final Workshop, to share the projects main findings with the public, and to the latest ENEN2plus status meeting.

The 3rd day, the 22nd September 2023 was ENEN 20th Anniversary and we celebrated it with an event dedicated to Education & Training in the frame of the #EuropeanYearOfSkills.

We deeply thank everyone who took part in the event, who shared (part of) the ENEN journey with us and we are sure that more opportunities awaits to shape together the nuclear E&T scenario.
